PROFESSIONAL SUMMARY

Full-Stack Developer (MERN) with hands-on experience building production-ready web applications including AI-powered chat platforms and trading dashboards. Skilled in React.js, Node.js, MongoDB, and API integration with deployment on cloud platforms. Actively expanding expertise in Python, FastAPI, and PostgreSQL. Transitioned from Electrical Engineering with strong problem-solving and teamwork experience in KPTCL. Available immediately for development roles.

TECHNICAL SKILLS

- **Frontend Technologies:** JavaScript (ES6+), React.js, HTML5, CSS3, Bootstrap, Material UI, Tailwind CSS
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases:** MongoDB, MySQL (Basic)
- **Development Tools:** Git/GitHub, Postman, VS Code, Vite
- **Deployment & Hosting:** Vercel, Render, Netlify
- **AI Integration:** OpenAI API, Google Gemini API
- **Soft Skills:** Self-learning, Problem-solving, Time management, Technical documentation

PROJECTS

askGPT – AI Chat Application | Live Demo | GitHub

Tech Stack: React.js, Node.js, Express.js, MongoDB, Google Gemini API, JWT, CSS

- Built full-stack AI chat application supporting both text and image generation using Google Gemini API
- Implemented secure user authentication with JWT tokens, enabling personalized chat histories and user sessions
- Designed responsive UI with real-time message rendering and smooth API integration for optimal user experience
- Solved complex state management for chat conversations, user authentication, and API response handling
- Deployed production-ready application with proper error handling and loading states

Zerodha Trading Platform Clone | Live Demo | GitHub

Tech Stack: React.js, Node.js, Express.js, MongoDB, Chart.js, Axios, CSS

- Developed comprehensive trading platform replica with 6 core modules: Dashboard, Watchlist, Orders, Holdings, Funds, and Positions
- Implemented secure authentication system with JWT-based protected routes for user data security
- Integrated data visualization using Chart.js for stock price tracking and portfolio analytics
- Built scalable backend architecture with Express.js REST APIs and MongoDB for user data management
- Deployed full-stack application on Render with proper environment configuration and database connectivity

PROFESSIONAL EXPERIENCE

Career Transition & Skill Development | 2022 - 2024

Full-Stack Development Training & Project Development

- Completed professional React.js certification and MERN stack training at JSpiders institute
- Built 5+ production-ready web applications from concept to deployment
- Mastered modern development workflows including Git version control, API integration, and cloud deployment
- Developed expertise in problem-solving using AI tools (ChatGPT, Gemini) for efficient debugging and learning

Shift Engineer | Jan 2024 - Present

Karnataka Power Transmission Corporation Limited (KPTCL), Ballari

- Manage critical electrical systems in high-responsibility, shift-based technical environment
- Gained valuable experience in real-time problem-solving, technical reporting, and cross-functional teamwork
- Developed strong analytical thinking and decision-making skills under pressure
- **Available for immediate transition to development role with proper notice period**

CERTIFICATIONS

Full-Stack Web Development | Apna College | 2025

Comprehensive MERN stack training with hands-on project development

React.js Certification | JSpiders | 2023

Advanced React concepts, hooks, state management, and API integration

EDUCATION

Bachelor of Electrical & Electronics Engineering (EEE)

BNM Institute of Technology, Bangalore | 2019 – 2022 | 60%
